FAMINE TRULY TERRIBLE

Conditions in Portions of China Are Awful.

TEN THOUSAND ARE DEAD

In One Province Alone, Worst Form of Brigandage and Wholesale Executions by Those in Authority Add to the Horrors.

Victoria, B. C., July 25.—Rev. T. N. Thompson, who arrived by the Akt Maru from Hau Chou Fu, in northern Kiangsi, and Mr. Rice, who arrived with his family from Tsingkianghu, on the Yangtsiang, who was engaged in distributing famine relief to sufferers in afflicted districts have many harrowing scenes to tell. Deaths due to the famine can scarcely be estimated owing to the failure of the Chinese to keep any record, but the Tsingkianghu district alone, is said to be 10,000 dead. Relief came slowly at first, but soon large amounts began to pour in, both from the United States and government sources. The Chinese government gave 1,500,000 taels, but how much reached the famine stricken people it is difficult to say. There was also about a like amount of taels from foreign relief in money and grain. About \$25,000 is being retained for relief, the harvest being poor in the south, although good in north Kianghu. Brigandage is worse this year than ever in Chinese history and officials are severe, over 400 executions taking place near Hau Chou Fu alone.

POUR OIL ON MEAT.

Jewish Women Show Indignation in Various Ways.

Philadelphia, July 25.—The Jewish quarter in the southeastern section of this city was the scene of a wild disorder Thursday when the women of the quarter made a demonstration against all kosher butchers as a protest against the increase in the price of beef. Shops were invaded by angry women, prospective customers driven out, windows broken and kerosene, in a number of instances, poured over all the meat in sight. Arrests were followed by a demonstration against two police stations to which several women were taken and the police compelled to use considerable force in dispersing the crowds.

The women allege the retailers have been charging 14 cents and 16 cents per pound for meat which last year at this season could be bought for 10 cents and 12 cents. More than 1,000 women met and formed an organization. The pledge themselves to use all possible efforts to influence other Jewish women to join in its movement against the butchers. A committee of thirty women was appointed with instructions to post pickets around all kosher shops and urge prospective purchasers not to buy.

BEING ARGUED.

Cumberland Presbyterian Church Union Case Up in Court.

Nashville, July 25.—The noted Cumberland Presbyterian church union case is being heard before Judge Walter M. Bearden of this city. Judge John M. Gaut opened the argument for the unionist faction and was followed by Judge W. C. Caldwell for the loyalists. Although argument attaches over a wide field of ecclesiastical and civil law, there is really one question at issue. That is as to the form of the union.

SWEPT BY FIRE.

Tremendous Loss Results Through a Conflagration in Canada.

Ottawa, Ont., July 25.—New Edinburgh, a suburb of this city was swept by fire. The loss is estimated at \$300,000.

Immense Sum.

New York, July 25.—It is figured that disbursements and interest payments to be made on the August, will aggregate \$75,000,000. Amalgamated Copper dividend calling for \$3,077,760 is one large item. Illinois Central dividend calls for \$3,326,400, and United States Steel Cooperation dividend to be paid out at the end of the month calls for \$6,305,496.

Summoned to Oyster Bay.

Roswell, N. M., July 25.—Captain George B. Curry, who will be inaugurated governor of New Mexico Aug. 1, received a telegram summoning him east for a conference with the president. All inauguration plans have been changed.

Two Tied.

New York, July 25.—In the Glidden race G. S. Smith of Philadelphia and H. K. Rheidan of Cleveland tied for the Howell runabout cup. These two will decide the winner in a further endurance test. The Buffalo club, the holder, again won the trophy for club percentages.

Twenty to Raise Price.

Havana, July 25.—Twenty independent cigar manufacturers, though not the most important ones, have decided to raise the price of cigars, charging American money in Spanish gold. This step is likely to be followed soon by all.

SHOCKING STORY TOLD.

Couple of Italians Relate Tale That Is Startling.

SAY PEONAGE PREVAILS.

Assert That Fifty of Their Countrymen Are in a State of Servitude, Being Forced to Labor Long Hours, Given Poor Food and Cowhided.

St. Louis, July 25.—The story told by Amedea and Olindo, two Italians who said that they had been held in slavery nearly twenty-two months on a Mississippi plantation, and had just escaped, caused District Attorney Blodgett to start an investigation into the alleged peonage.

As to the story told by the Italians through an interpreter, there is a peonage colony of twelve Italian families, consisting of fifty persons, on a cotton plantation at Robinsonville, Miss. They said they had been held in peonage nearly twenty-two months and escaped from the plantation last Sunday. They declared armed guards prevented any communication with persons outside, and any letters written were destroyed. Those who attempted to escape were fired on, and after being returned to the plantation were beaten with cowhide whips as an example. Regardless of age, every one in the place was compelled to do the hardest sort of work from early morning until late at night. They had only the poorest food.

After hearing the story United States District Attorney Blodgett immediately telegraphed to W. D. Frazer, United States district attorney for the Northern district of Mississippi. The two fugitive Italians are being cared for by sympathetic countrymen.

"YOU'RE A LIAR!"

Blows Were Exchanged After This Emphatic Remark.

Atlanta, July 25.—The "lie" was passed and blows were exchanged before the fight on prohibition was closed in the house of representatives on Wednesday night by adjournment until Thursday, when the fight to place the bill on its third reading for passage was to be resumed.

The session, which had been continuous since 9 o'clock in the morning, had been drawn until nearly 10:30 at night, when disturbances from the galleries caused Speaker Slaton to order them cleared. This was done, and acrimonious debate continued on the floor. A dispute arose between Representative Wright of Florida and Representative Hall of Bibb progressed to the point where Mr. Wright told Mr. Hall, "You're a liar." Instantly the space between the two was crossed and blows were exchanged. Friends quickly intervened, quiet was restored, and in a silence almost painful Representative Candler urged that adjournment be taken, which was done.

HUGS AND KISSES.

Survivors of the Columbia Greeted Thus at Portland.

Portland, Ore., July 25.—Bearing survivors of the wrecked steamer Columbia the steamer George W. Elder made fast to her dock in this city at 6 o'clock Wednesday night. Hours before the big steamer touched her dock thousands of people had gathered to welcome the fortunate survivors of the catastrophe, and relatives and friends wanted to prove by sight and touch the safety of their loved ones. And there were those who were impelled by a final hope that by some miracle a father, a wife, a son or a daughter might have been overlooked in the roster of the saved.

When the big boat made fast a great cheer arose, and by what seemed mutual consent, the crowd divided, forming in line on either side of a narrow lane, through which the survivors walked as they left the vessel. They were seized as fast as they were recognized and smothered with hugs and kisses.

There was an old man on the raft, reported to be wealthy, but he died almost immediately from exposure. Russell picked up a little dog which was bobbing in the water. It had been chained on the Columbia, but the watchman cut it loose. The dog was brought here by the Elder.

Savannah, Ga., July 25.—John H. Hughes, a longshoreman, died from heat prostration. Overcome by heat G. W. Hayes, a carpenter, fell from a scaffolding and broke several ribs. His condition is critical. The thermometer registered at its highest only 96 degrees, but the air was extremely close.

Hempstead is marketing a \$50,000.00 watermelon crop for a start-

er, before the cotton begins to move.

A young man of Alpine reports to the Avalanche that the finest fruit of this great fruit country is a date with a peach.—Alpine Avalanche.

"Turn that wrapping paper the other side out," said a lady in a dry goods store this morning as the clerk was putting up her purchases in a printed wrapping paper. I do not want to be a walking advertisement for your store. I read the papers, as all intelligent people ought to do, and I think in them is the place to advertise your business. Instead of asking your customers to carry your sign around, with each purchase of goods, go and tell the people through the paper what you have to sell and how you sell it.—Anderson Advocate.

SINCE THE BUCKET SHOPS CLOSED.

We note that cotton exchanges or boards of trade are being rapidly formed in a number of the cities and smaller towns of Texas since the Jenkins-Mayfield law went into effect on the 12th of July. At Fort Worth, Hillsboro, Dallas, San Antonio, San Angelo and other places the cotton and grain commission men are active in organizing local bodies under the provision of the law and will secure their quotations daily as before.—Farm and Ranch.

A CORRECTION.

The new trial granted in the Bonnevill estate suit at Houston a few days ago related to the previous verdict allowing L. Bonnevill one sixth of the property. In reporting the case recently the Eagle used the name of M. Bonnevill Jr. instead of L. Bonnevill, and this statement is made as a correction.

UNIFORM BOOKKEEPING.

Effort Being Made to Make It Same on All Railroads.

Austin, July 25.—S. L. Lupton of Washington, special agent of the interstate commerce commission, reached here Thursday and had a conference with the railroad commission regarding a proposition to establish a uniform system of bookkeeping for railroads of the various states. Mr. Lupton says he is visiting the railroads of different states with a view of getting their methods of bookkeeping.

Professor J. M. Carlisle of Arlington, has resigned as a member of the state board of normal examiners. His personal business demands his attention. Members of the railroad commission were served with process in injunction suit of Galveston, Harrisburg and San Antonio railway against the commission, restraining the commission from putting into effect the order requiring plaintiff to put on double daily passenger service from Houston to San Antonio. The commission will move to dissolve the injunction.

Scalpers Doing Well.

San Antonio, July 25.—The ticket scalpers have been fattening their purses as a result of the anti-free pass law. There was a big demand for reduced rates, and about the only way they can be secured is by a visit to the office of some scalper. Despite the strictly city ordinance against scalping, a big business in cut rate tickets is going down here.

WOMAN STABBED.

Another Murder Has Come to Light at Chicago.

Chicago, July 25.—Mrs. Emanuel Bloom, of 443 Belmont avenue, was mysteriously stabbed and killed in her apartment early Thursday. Half an hour later her husband was found unconscious on the ground in the rear of the flat building, evidently having jumped from their flat, which is on the third floor.

Bloom was taken to Alexian brothers' hospital, still unconscious. A policeman was present to guard him, and he will be held under arrest until the mystery is cleared.

It was about 1 o'clock when Bloom went across the street from his house to the residence of Dr. Evan L. Barryte, aroused the physician and told him that Mrs. Bloom was apparently dying of a wound in the abdomen inflicted with a butcher knife.

The doctor went at once, but Mrs. Bloom was dead when he arrived. He said she had bled to death and that of course the crime, of whatever sort, it was, had been committed but a short time before. Dr. Barryte went to his house and notified the police at once. He said that Bloom had appeared grief stricken and that he was kneeling over his wife's body when he left their house.

A few minutes later two policemen arrived at the Bloom flat. They searched for Bloom and finally found him on the ground in the immediate rear of the flats. He was unconscious.

The neighborhood was searched for a trace of any other person who might have been involved, but no one was found. Meanwhile Bloom was taken to the hospital.

SHOCKING SUICIDE.

Husband's Lack of Praise Cause of Fearful Death.

Little Rock, July 25.—Angered because her husband refused to praise her for saving money on the purchase at a store, and heavy sales during the morning, Mrs. Ann Lowe poured a gallon of coal oil on her head, told her little daughter to watch and see the show and set fire to the oil. Mrs. Lowe's body was burned to a crisp. Relatives were attracted by the child's screams. Lowe is a laborer and his wife conducted a store while he was away at work.

Daughter of American Ambassador to Japan Will Wed.

Memphis, July 25.—The News-Scimitar prints the following: Miss Katrina Wright, daughter of General Luke E. VESSELS FOUNDER.

Two Go Down While a Furious Storm Was Prevailing.

Cleveland, O., July 25.—People at a summer resort on the lake just east of the city reported that they had seen two small sailing vessels founder during the height of a furious storm. As soon as possible two launches were sent to the scene of the supposed wrecks, about three miles off shore. The launches searched in vain for wreckage, but found nothing. The livesavers express the belief that the people on shore had seen the two vessels disappear in the mist during the storm and erroneously supposed they had foundered.

CLEMENT COLLAPSES.

Former Bank President Falls at Doors of Penitentiary.

Stillwater, Minn., July 25.—Unable to bear up under the prospect of eight years' imprisonment in the state penitentiary, Thomas B. His condition is regarded as critical.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else. It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had. For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

Dr. Shoop's Restorative

M. H. JAMES.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will diminish the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and purge of this deplorable disease. In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it uniformly cures all curable cases of this heretofore much dreaded disease. These sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

Dr. Shoop's Rheumatic Remedy

Deputy Sheriff Conlee met the sheriff of Falls county at Hearne yesterday and brought back to Bryan two young white men arrested by the Falls county officer a few nights since in Brazos county for train riding and taken on to Marlin. The young men state that they reside in Houston. They had a hearing before Justice McGee yesterday afternoon and were fined \$5.00 and costs.

The Galveston News correspondent in charge of the Farmers' Congress pays the following compliment to Prof. J. W. Carson: "Much credit is due to Prof. J. W. Carson, who has been untiring in his efforts to see that every one who came to the Congress received ample accommodations. He generally remains up till late at night, in fact till all trains have come in from the north and south."

CALDWELL'S

THIRTY DAYS THIRTY Clearance Sale

The fact that nearly everything in the jewelry and kindred lines has advanced within the last few months—from 10 to 15 per cent—it becomes necessary for us to increase the retail price on all such goods accordingly. Before we advance the price on a single article we are going to give our customers an opportunity extraordinary. We positively claim this to be the

Greatest Inducement

ever offered in all lines. As to Low Prices, it beats any sale we have ever put on before. Mr. Caldwell will be out of the city for a month. During this time he will visit the leading jewelry markets and make purchases for the fall and Holiday trade. With a gentle reminder that we will need a place for our fall stock and that we can use a little cash to good advantage, we hit the recent advance in prices full in the face with a 20 per cent reduction, and for the next thirty days place our entire stock, except Diamonds and plain Gold Rings and Solid Silver

Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

The Remarkable Part.
One day some Americans on a visit to Wales expressed a wish to see a certain old and historic church. The incumbent was only too pleased to show them around, especially as he believed it would end in a donation being given to his parochial funds. He is as proud of the school as he is of the church and finished up by asking them in there also and inviting them to question the scholars.

One of the party accepted the invitation.
"Can you tell me, little boy," he said to one lad, "who George Washington was?"
"Iss, surr," said he; "he wass a Merryccan gen'ral."
"Quite right," said the American. "And can you tell me what George Washington was remarkable for?"
"Iss, surr; he wass remarkable 'cos 'e wass a 'Merryccan an' told the trowth."
The American didn't question further.—Cassell's Magazine.

The Tea Taster.
What are a tea taster's duties? He must distinguish the mixture of two blends; point out in each separate instance if the mixtures are of equal grades; he must know to a nicety the difference between a pure brand and an inferior one; he must know the taste of every individual sort of tea—not an easy thing, when it is remembered that brands of tea are many and the blends are constantly being re-blended. In ten years' time a tea taster cannot be deceived as to the history or nationality of any tea in the world. He can prevent his firm from being deceived, for he has drunk tea with milk, cream, lemon, straight, served according to the peculiar wish of every nation. He is sent to China, Japan, Russia, India, to study the tea brew of each tea drinking nation.—Boston Herald.

INSURANCE SECURITIES.

Attorney General Holds Commissioner May Investigate.

Austin, July 25.—The attorney general, having agreed with the state treasurer that the insurance commissioner will pass upon all securities offered for deposit in satisfaction of the Robertson investment and deposit law, there will be some protection against valueless securities placed in the vaults of depositories as a guarantee to the holders of life insurance policies in the state. The attorney general simply says the commissioner has the right to pass upon these securities under the provisions of the Robertson law, which authorizes the commissioner to investigate the capital stock of insurance companies doing business in this state, and under that authority he proposes to look into all securities offered as collateral by the terms of the Robertson act.

INSULT RESENTED.

Negro Attorney Badly Beaten and Another Black Shot.

Goliad, Tex., July 25.—As the result of an insult alleged to have been offered by a negro lawyer named D. Pickens of Houston to the law firm of Fowler & Fowler in a legal petition an exciting scene occurred. As Pickens and another negro named James Miller walked down Main street, just in front of the Brown building, M. W. Fowler stepped out of the building and beat Pickens to the sidewalk with a hoe handle, splitting his head in two places. As he stood over the negro lawyer, Miller grabbed the stick with one hand and made a movement for his pocket with the other. At this movement Representative Fowler's brother, Wallace, fired once with a pistol, the shot lodging in the left side. The shot, at close range, also completely paralyzed the negro and physicians says he will not live.

Pickens was badly beaten up, but will recover.
Both of the Fowlers surrendered and gave bond.

RUN OUT OF TOWN.

Had Attempted to Organize Clerks Into a Union.

Duluth, Minn., July 25.—A special from Ely, Minn., says: Alfred Lundstrom, local organizer of the Western Federation of Miners, was run out of town by a number of business men. Lundstrom has been making this city his headquarters for several days, and had not been molested by citizens, although they were not in sympathy with his work. Wednesday afternoon he went into a butcher shop to form an organization among the clerks. The proprietor thrashed him, and he was later arrested, but was allowed to leave town.

Large Number of Persons Witness Working of Apparatus.

College Station, Tex., July 25.—A practical exhibition of an apparatus for milking cows was given Wednesday before a large number of persons. A splendid flow of the lactical fluid was secured from each of the four cows milked. The animals took kindly to the innovation, and no "kick" was recorded.

QUEER CLAUSE.

Lighted Lamp Must Be Carried Hour Each Before and After Sunrise.

DARROW DENOUNCES.

Attorney For Haywood Scores Orchard et Al.

Boise, Ida., July 25.—The career of Frank Steunenberg, the murdered governor of Idaho, was discussed at some length by Clarence Darrow in his plea in behalf of William D. Haywood. Justifying the articles published in the Miners' Magazine, the official organ of the Western Federation of Miners, Mr. Darrow said the action of Steunenberg in asking for United States troops to quell riot and the establishment of martial law in 1899 was unjustifiable, and had properly stirred up intense feeling in labor circles against the governor.

Mr. Darrow's argument developed into an appeal for labor as against capital and a denunciation of all opposition to unions. He held an audience startled and open-mouthed as one after

CLARENCE S. DARROW.

another of the sentiments poured from his lips. His attack on Orchard was expected, and this respect he fulfilled and surpassed the limit of sensation. Three hours were given to Orchard, and it was only when vituperation, physical force and words were spent that Darrow turned to James H. Hawley, leading counsel for the state, and the Pinkerton detectives for something on which to pour the lesser volume of abuse.

The state of Idaho came in for a large share of Mr. Darrow's denunciation for the part it has played in the prosecution. Culture, education and wealth each in turn were described as constituting a combination against the workingmen; the uneducated and poor man must ever be protected.

Reaching the climax of denunciation of sympathy for the working classes and hatred for the rich, he assailed the constitution of the country, and cried: "The constitution! The constitution! It is only here to destroy the laws made for the benefit of the poor."

Mr. Darrow's support of labor unions and of union men was passionate, and his eulogy of the Western Federation was eloquent. Lovingly he touched on the beauty of self-sacrifice in the "struggle for humanity where only the workingman is found," and in the bitterest sarcasm, his voice pitched to its highest note and his arms upheld, he heaped abuse upon selfish rich and upon the administration of the state of Idaho.

Orchard, Darrow claimed, had been told by a miserable Pinkerton detective that if he told his real name his story would have greater weight upon the jury and would help to tie the rope about the neck of Bill Haywood.

"No man save Hawley, I might say, no sane man," declared the attorney, "can ever think of Harry Orchard with anything but loathing."

In a burst of oratory Orchard said: "You men of the prosecution, you men of the Mine Owners' association, you men who are seeking the life of Bill Haywood, not because he is Haywood, but because he represents a class, don't be so shortsighted, so foolish to believe that you will strangle the Western Federation of Miners when you tie a rope about Bill Haywood's neck; don't be so blind as to believe that when you make three fresh new graves here in Idaho that you have killed the labor movement in the world. When Bill Haywood is gone millions of other willing hands will carry on his work of victory to the end."

THOUGHT HIM JOKING.

Man Tells on April Fools' Day of Having Killed His Wife.

Chicago, July 25.—How difficult it is to get arrested in Chicago on April Fools' day, even if one has killed one's wife, was told in Judge Keersten's court by Charles Graff, now on trial. He admits he killed the woman with an ax on the night of March 31, but says he did it in self-defense.

In the morning he went to the Maxwell Street station, so he testified, to give himself up, but the desk man thought he was joking when he mentioned a murder. At a saloon his statement that he had killed his wife was received with similar incredulity. The secretary of Graff's lodge was also incredulous, but finally was convinced. By this time the police had found out a woman was dead and Graff succeeded in getting himself arrested.

THERE is no fairer country or more delightful climate on earth than that of Colorado during the heated term.

Hundreds of places of interest to the sight-seer engage his attention and interest him, while at the same time he is fanned by cooling breezes, rich in life-giving ozone, fresh from the realms of perpetual snow.

The entire State is a mass of picturesque scenery, affording an endless delight to those who are interested in the sublime vagaries of Nature, for in Colorado Nature seems to have exhausted herself in the production of the sublime and beautiful. The lofty peaks of the famed Rockies, forming the "Continental Divide," tower skyward and stretch away, snow-capped, in the wondrous vista.

ON every side there is something to interest and inspire the beholder; the richest gold-producing mines on earth are there, and a visit to them will never be forgotten. In addition to such renowned resorts as Colorado Springs, Boulder, Glenwood Springs, Denver, etc., Colorado has innumerable other points of equal interest and attraction, each affording distinctive features of its own, and each, alone, being worth far more than the cost of transportation to the state to see. Visit Colorado now, "the land of gold," "the land of health" and the land of glorious scenery. Hotels are legion, and the vacationist can always find accommodation at a price to suit his pocket book. The principal points of interest are quickly and conveniently reached via "The Denver Road," the great thoroughfare to "Cool Colorado."
